CASA POLO

FULLBODY TILES

Sophistication Redefined

The category of homogeneous full body products is widely appreciated by Architects and Interior Designers for its versatile applications, long-lasting performance, and refined aesthetics. CASA POLO is one of our most exciting full body tile series, designed to bring depth, elegance, and durability to contemporary spaces.

The beauty of CASA POLO comes from our innovative and exclusive Hybrid+ Technology, a first-of-its-kind technology in India, equipped with the advanced Dry Glue Decorative Flakes (DGDF) application system. Using full body coloured clay powder and clay flakes throughout the tile body, CASA POLO achieves a naturally rich surface effect without the use of conventional liquid ink on the surface.

The collection is now available in six sophisticated matt colours, thoughtfully divided into two ranges. The Base range includes Silver, Scuro, and Crema, offering timeless and versatile tones for elegant spaces. The Plus range includes Copper, Nero, and Dolomite, designed to add stronger character, depth, and premium visual appeal.

With precision-created coloured and glue flakes, each surface delivers a refined texture and natural aesthetic.

ZERO REFLECTIONS DEAD MATT

Casa's Hybrid+ Technology creates consistent matte finish in full-body tiles while maintaining strength and durability. It enhances visual depth, reduces glare, and improves wear resistance, making the tiles ideal for stylish residential and commercial spaces.

DESIGN POSSIBILITIES

Where Two Tiles Create One Masterpiece

Great design begins with creativity. Our carefully selected 600×600 tile pairings demonstrate how two designs can work together to create stunning visual effects, define spaces, and enhance architectural aesthetics. From subtle elegance to bold statements, these combinations unlock endless opportunities to personalize interiors while maintaining balance, sophistication, and timeless appeal.
